SECTION 1: INVITATION TO TENDER & PROJECT BACKGROUND

1.1 Project Purpose: Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) invites qualified environmental contractors to submit a comprehensive Technical and Commercial Proposal for integrated waste collection, recycling segregation, and hazardous waste haulage across Sohar Industrial Zone and Duqm Logistics Hub.

1.2 Contract Duration: The initial contract duration shall be 24 months commencing 1 December 2026.
1.3 Submission Deadline: All proposals must be submitted before 15 November 2026 at 14:00 GST.
1.4 Payment Terms: Standard payment credit period shall be 30 days from verified monthly invoice submission.

SECTION 1: INVITATION TO TENDER & PROJECT BACKGROUND

Clause 1.2 — Operational & Technical Provisions (Page 2):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 2.1 — Sub-Zone Operational Schedule (Page 2):
Zone Sector-3 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 2-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 2.
• Obligation 2-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

3.1 Mandatory Container & Fleet Scope of Work:
• General Waste Collection: 12 x 1,100 L galvanized bins collected 3x weekly across Zone A & Zone B warehouses.
• Segregated Cardboard & Recyclables: 6 x 1,100 L recycling bins collected weekly with monthly ISO 14001 diversion certificates.
• Industrial Skip Containers: 4 x 6 m3 chain-lift skips with 8 skip lifts per month.
• Bulk RoRo Containers: 3 x 30 CBM RoRo containers for industrial scrap and C&D debris with 6 RoRo trips per month.
• Hazardous Sludge & Chemical Drums: 15 Metric Tons per month of ADR-certified hazardous waste transport and manifested disposal.

SECTION 2: GENERAL INSTRUCTIONS TO BIDDERS & SUBMISSION DEADLINES

Clause 2.4 — Operational & Technical Provisions (Page 4):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 4.1 — Sub-Zone Operational Schedule (Page 4):
Zone Sector-5 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 4-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 4.
• Obligation 4-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 3: TECHNICAL SCOPE OF WORK & CONTAINER SCHEDULE

Clause 3.5 — Operational & Technical Provisions (Page 5):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 5.1 — Sub-Zone Operational Schedule (Page 5):
Zone Sector-6 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 5-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 5.
• Obligation 5-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 3: TECHNICAL SCOPE OF WORK & CONTAINER SCHEDULE

Clause 3.6 — Operational & Technical Provisions (Page 6):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 6.1 — Sub-Zone Operational Schedule (Page 6):
Zone Sector-7 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 6-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 6.
• Obligation 6-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 4: INDUSTRIAL, BULK RORO & HAZARDOUS WASTE SPECIFICATIONS

Clause 4.7 — Operational & Technical Provisions (Page 7):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 7.1 — Sub-Zone Operational Schedule (Page 7):
Zone Sector-8 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 7-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 7.
• Obligation 7-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 4: INDUSTRIAL, BULK RORO & HAZARDOUS WASTE SPECIFICATIONS

Clause 4.8 — Operational & Technical Provisions (Page 8):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 8.1 — Sub-Zone Operational Schedule (Page 8):
Zone Sector-1 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 8-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 8.
• Obligation 8-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 5: FLEET GPS TRACKING, WEIGHBRIDGE & BEAH MANIFEST COMPLIANCE

5.4 Special Contractual Clauses & Cross-Check Items (Page 9):
• Note on Contract Duration: The contract term is stated here as 12 months renewable option (Note: compare with Section 1.2 which states 24 months).
• Note on Payment Terms: Invoices shall be settled within 60 days net (Note: compare with Section 1.4 which states 30 days).
• Liquidated Damages / SLA Penalty: Delayed skip replacement beyond 24 hours attracts a penalty of 50 OMR per incident.
• Unconfirmed Item: Exact hazardous waste bay coordinates in Sector 7 are TBD subject to site survey.

SECTION 6: HEALTH, SAFETY & ENVIRONMENT (HSE) & ISO CERTIFICATIONS

Clause 6.10 — Operational & Technical Provisions (Page 10):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 10.1 — Sub-Zone Operational Schedule (Page 10):
Zone Sector-3 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 10-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 10.
• Obligation 10-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 6: HEALTH, SAFETY & ENVIRONMENT (HSE) & ISO CERTIFICATIONS

Clause 6.11 — Operational & Technical Provisions (Page 11):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 11.1 — Sub-Zone Operational Schedule (Page 11):
Zone Sector-4 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 11-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 11.
• Obligation 11-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 7: COMMERCIAL TERMS, SCHEDULE OF RATES & BILL OF QUANTITIES

Clause 7.12 — Operational & Technical Provisions (Page 12):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 12.1 — Sub-Zone Operational Schedule (Page 12):
Zone Sector-5 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 12-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 12.
• Obligation 12-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 7: COMMERCIAL TERMS, SCHEDULE OF RATES & BILL OF QUANTITIES

Clause 7.13 — Operational & Technical Provisions (Page 13):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 13.1 — Sub-Zone Operational Schedule (Page 13):
Zone Sector-6 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 13-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 13.
• Obligation 13-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 8: SERVICE LEVEL AGREEMENTS (SLA), PENALTIES & LIQUIDATED DAMAGES

Clause 8.14 — Operational & Technical Provisions (Page 14):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 14.1 — Sub-Zone Operational Schedule (Page 14):
Zone Sector-7 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 14-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 14.
• Obligation 14-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 8: SERVICE LEVEL AGREEMENTS (SLA), PENALTIES & LIQUIDATED DAMAGES

Clause 8.15 — Operational & Technical Provisions (Page 15):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 15.1 — Sub-Zone Operational Schedule (Page 15):
Zone Sector-8 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 15-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 15.
• Obligation 15-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 9: CONTRACT DURATION, TERMINATION & PERFORMANCE BOND

Clause 9.16 — Operational & Technical Provisions (Page 16):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 16.1 — Sub-Zone Operational Schedule (Page 16):
Zone Sector-1 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 16-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 16.
• Obligation 16-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 9: CONTRACT DURATION, TERMINATION & PERFORMANCE BOND

Clause 9.17 — Operational & Technical Provisions (Page 17):
The Contractor shall maintain all waste containment equipment in serviceable, leak-proof, and sanitized condition at all times. All collection vehicles operating within Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) premises must be equipped with real-time GPS telemetry, reverse alarms, spark arrestors, and spill containment kits.

Table 17.1 — Sub-Zone Operational Schedule (Page 17):
Zone Sector-2 | 1,100 L Bins & 6 m3 Skips | Collection: 3x Weekly | SLA: 24 Hours | Manifest: Required

• Requirement 17-A: Contractor must submit calibrated weighbridge tickets for every trip completed on Page 17.
• Obligation 17-B: Zero tolerance for unmanifested disposal or mixed hazardous/non-hazardous loads.

SECTION 10: MANDATORY TECHNICAL & COMMERCIAL CLARIFICATION QUESTIONS

10.1 Mandatory Questions Requiring Bidder Response (Page 18):
Q1: Please confirm your valid Be'ah and Environment Authority License numbers and attach ISO 14001 / 45001 certificates.
Q2: Please provide an itemized unit rate and monthly total schedule in OMR for all 1,100 L bins, 6 m3 skips, 30 CBM RoRo containers, and hazardous waste tonnage.
Q3: Please confirm your guaranteed emergency skip replacement SLA response time in hours.
Q4: Please clarify how cradle-to-grave 5-part Environment Authority waste manifests will be delivered each month.
