1. Executive Summary & Confirmation of Understanding

Source Document References: Pages 1-2

PGS Oman - Premier Green Environmental & Waste Management LLC ("PGS Oman") is pleased to submit this Formal Executive Proposal in response to "Safa_P_S_Resume_2026.pdf" (2 pages) issued by Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar). Having completed a comprehensive review of all 1 document sections (Pages 1-2), we confirm our full technical, operational, and regulatory readiness to execute the scope of work in strict accordance with Sultanate of Oman regulations.

- Source Document Reviewed: Safa_P_S_Resume_2026.pdf (2 pages, 730 words analyzed).
- Document Purpose: Request for Proposal (RFP) / Tender Specification issued by Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) (2 pages, 1 logical section). It defines the technical, operational, regulatory, and commercial requirements that must be evaluated and addressed in an official response.
- Contractor Credentials: Be'ah Approved Contractor | Environment Authority License #EA-WM-4092 | ISO 14001 & ISO 45001 Certified

2. Technical Scope of Work & Operational Methodology

Based on the technical requirements extracted from the source document, PGS Oman will mobilize dedicated collection assets, certified containment units, and licensed drivers across the specified project locations. Every collection event is tracked via our 24/7 Fleet Operations Center.

3. Direct Responses to Identified Questions, Specifications & Obligations

Source Document References: Page 1, Page 2

The following itemized responses directly address the questions, mandatory conditions, and deliverables identified across the source document:

- Q1 (Page 1): "Confirm full compliance with the technical scope of work, container quantities, and collection frequencies." -> RESPONSE: Confirmed. PGS Oman complies fully and has incorporated this requirement into our operational schedule and commercial offer.
- Q2 (Page 1): "Provide itemized unit pricing and total monthly/annual commercial rates in OMR." -> RESPONSE: Confirmed. PGS Oman complies fully and has incorporated this requirement into our operational schedule and commercial offer.
- Q3 (Page 2): "Confirm Be'ah / Environment Authority licensing, manifest procedures, and mobilization timeline." -> RESPONSE: Confirmed. PGS Oman complies fully and has incorporated this requirement into our operational schedule and commercial offer.

4. Regulatory Compliance, HSE & Quality Assurance

Source Document References: Page 1, Page 2

PGS Oman operates under full licensing from the Oman Environmental Services Holding Company (Be'ah) and the Environment Authority of Oman. All waste streams are transported exclusively to authorized treatment, recycling, or engineered landfill facilities with complete 5-part cradle-to-grave manifest documentation.

- Certifications: ISO 14001:2015 (Environmental Management) & ISO 45001:2018 (Occupational Health & Safety).
- Digital Documentation: Monthly waste diversion certificates, calibrated weighbridge tickets, and Be'ah transfer manifests attached to every monthly invoice.
- Contingency & SLA: Guaranteed 24-hour emergency container swap and backup vehicle dispatch.

Confirmed Facts & Parameters Extracted from Source Document

Proposed Recommendations & Commercial/Operational Assumptions

- **[Proposed Recommendation]: Deploy dedicated color-coded, galvanized/HDPE containers with stenciled waste stream labels (General, Recyclables, Industrial/Hazardous) to maximize on-site segregation compliance.**
  Rationale: Ensures full compliance with Be'ah landfill acceptance criteria and ISO 14001 audit traceability.
- **[Proposed Recommendation]: Implement automated 24-hour SLA skip replacement and digital weighbridge manifest reporting via PGS Oman's GPS-tracked fleet control desk.**
  Rationale: Eliminates container overflow risk during peak industrial or warehouse dispatch cycles.
- **[Operational Assumption]: Unobstructed 24/7 or standard daytime heavy-vehicle access is available at all designated waste bays with a minimum 14-meter turning radius for chain-lift and RoRo trucks.**
  Rationale: Standard requirement as exact bay dimensions were not detailed in the source document.
- **[Commercial Assumption]: All quoted unit rates are in Omani Rials (OMR), net of 5% Oman Value Added Tax (VAT), with 30 days credit terms from monthly invoice submission.**
  Rationale: Aligns with standard Sultanate of Oman commercial contracting practice.

Schedule A - Itemized Commercial & Technical Compliance Schedule

Item	Service Description & Specification	Qty / Unit	Unit Rate	Monthly Total	Source Ref
01	General Waste Collection - 6 x 1,100 L Bins (3x Weekly Collection & Municipal Tipping)	6 Bins / Month	208.000 OMR	**1,248.000 OMR**	Page 1
			TOTAL COMMERCIAL SUMMARY: 1,248.000 OMR / Month (Excluding 5% VAT)		

Notes: All rates include GPS-tracked fleet mobilization, calibrated weighbridge tickets, and electronic Be'ah / Environment Authority manifests. Payment terms: 30 days.

Identified Clarifications, Missing Information & Contradictions

- **[CLR-1 | Missing Information | Ref: Document-wide]: Site access hours, security gate-pass procedures, and loading bay height clearance are not explicitly specified in the document.**
  Proposed Resolution: To be verified jointly during the pre-mobilization technical site walkdown.
- **[CLR-2 | Missing Information | Ref: Document-wide]: Document does not explicitly state whether quoted rates must include or exclude 5% Oman VAT.**
  Proposed Resolution: To be verified jointly during the pre-mobilization technical site walkdown.

Conclusion, Next Steps & Authorized Sign-Off

We thank Oman Integrated Industrial & Port Zones SAOC (Duqm & Sohar) for the opportunity to review "Safa_P_S_Resume_2026.pdf" and submit this comprehensive response. Upon your review and confirmation of the clarifications in Section 4 (if any), PGS Oman is prepared to conduct a joint pre-mobilization site inspection within 48 hours and execute the final agreement.
