Proposed Recommendations & Commercial/Operational Assumptions

- **[Proposed Recommendation]: Deploy dedicated color-coded, galvanized/HDPE containers with stenciled waste stream labels (General, Recyclables, Industrial/Hazardous) to maximize on-site segregation compliance.**
  Rationale: Ensures full compliance with Be'ah landfill acceptance criteria and ISO 14001 audit traceability.
- **[Proposed Recommendation]: Implement automated 24-hour SLA skip replacement and digital weighbridge manifest reporting via PGS Oman's GPS-tracked fleet control desk.**
  Rationale: Eliminates container overflow risk during peak industrial or warehouse dispatch cycles.
- **[Operational Assumption]: Unobstructed 24/7 or standard daytime heavy-vehicle access is available at all designated waste bays with a minimum 14-meter turning radius for chain-lift and RoRo trucks.**
  Rationale: Standard requirement as exact bay dimensions were not detailed in the source document.
- **[Commercial Assumption]: All quoted unit rates are in Omani Rials (OMR), net of 5% Oman Value Added Tax (VAT), with 30 days credit terms from monthly invoice submission.**
  Rationale: Aligns with standard Sultanate of Oman commercial contracting practice.
